

TACTICAL MEDICAL SOLUTIONS

TOURNIQUET

7TH GEN WINDLASS TOURNIQUET

FAST. RELIABLE. ONE-HANDED. SAVE LIVES.

Engineered for tactical and pre-hospital environments, RUSUN Tourniquet delivers rapid arterial occlusion with reliable performance in any condition.

PRODUCT ADVANTAGES

ALL-METAL BUILD

All-metal windlass and buckle for superior strength and durability in extreme conditions.

ONE-HANDED OPERATION

Intuitive design enables rapid application and secure tightening with one hand.

STRONG & STABLE PRESSURE

Delivers consistent occlusion pressure to effectively stop arterial bleeding.

RUGGED & RELIABLE

Built for harsh tactical environments. Reusable, easy to clean and maintain.

PRODUCT DETAILS

WINDLASS TOURNIQUET

COMPACT & READY

QUICK & EASY TO USE

PLACE

Place 2–3 inches above the wound.

WRAP

Wrap the strap around the limb and feed through the buckle.

TWIST

Twist the windlass until bleeding stops.

SECURE

Secure the windlass in the clip and record the time.
